Core 1: Health Priorities in Australia Week 1, Term 2 2016

Area of the syllabus aimed to be covered in lessons this week:

How are priority issues for Australia’s health identified?

- measuring health status
  - role of epidemiology
  - measures of epidemiology (mortality, infant mortality, morbidity, life expectancy)
- critique the use of epidemiology to describe health status by considering questions such as:
  - what can epidemiology tell us?
  - who uses these measures?
  - do they measure everything about health status?
- use tables and graphs from health reports to analyse current trends in life expectancy and major causes of morbidity and mortality for the general population and comparing males and females

Homework

The following HSC questions are to be handed in on Monday 2nd May. Use your class notes, text book and sample answers to guide your response. When answering the multiple choice questions:

1. Choose what you think the answer might be
2. Look it up in your text book
3. Change your answer if you have to
4. Check with the marking guidelines. This will help cement your learning!

P4-p14 Measuring health status
Core 1: Health Priorities in Australia Week 2, Term 2 2016

Area of the syllabus aimed to be covered in lessons this week:

- identifying priority health issues
  - social justice principles
  - priority population groups
  - prevalence of condition
  - potential for prevention and early intervention
  - costs to the individual and community
- argue the case for why decisions are made about health priorities by considering questions such as:
  - how do we identify priority issues for Australia’s health?
  - what role do the principles of social justice play?
  - why is it important to prioritise?

What are the priority issues for improving Australia’s health?

Students learn about:

- groups experiencing health inequities
  - Aboriginal and Torres Strait Islander peoples
  - socioeconomically disadvantaged people
  - people in rural and remote areas
  - overseas-born people
  - the elderly
  - people with disabilities

Students learn to:

- research and analyse Aboriginal and Torres Strait Islander peoples and ONE other group experiencing health inequities by investigating:
  - the nature and extent of the health inequities
  - the sociocultural, socioeconomic and environmental determinants
  - the roles of individuals, communities and governments in addressing the health inequities

Homework

The following HSC questions are to be handed in on Monday 9th May. Use your class notes, text book and sample answers to guide your response. When answering the multiple choice questions:

1. Choose what you think the answer might be
2. Look it up in your text book
3. Change your answer if you have to
4. Check with the marking guidelines. This will help cement your learning!

Core 1: Health Priorities in Australia Week 3, Term 2 2016

Area of the syllabus aimed to be covered in lessons this week:

- high levels of preventable chronic disease, injury and mental health problems
  - cardiovascular disease (CVD)
  - cancer (skin, breast, lung)
  - diabetes
  - respiratory disease
  - injury
  - mental health problems and illnesses
- research and analyse CVD, cancer and ONE other condition listed by investigating:
  - the nature of the problem
  - extent of the problem (trends)
  - risk factors and protective factors
  - the sociocultural, socioeconomic and environmental determinants
  - groups at risk

Homework

The following HSC questions are to be handed in on Monday 16th May. Use your class notes, text book and sample answers to guide your response. When answering the multiple choice questions:

1. Choose what you think the answer might be
2. Look it up in your text book
3. Change your answer if you have to
4. Check with the marking guidelines. This will help cement your learning!

Core 1: Health Priorities in Australia Week 4, Term 2 2016

Area of the syllabus aimed to be covered in lessons this week:

- a growing and ageing population
  - healthy ageing
  - increased population living with chronic disease and disability
  - demand for health services and workforce shortages
  - availability of carers and volunteers.

- assess the impact of a growing and ageing population on:
  - the health system and services
  - health service workforce
  - carers of the elderly
  - volunteer organisations.

Homework

The following HSC questions are to be handed in on Monday 16th May. Use your class notes, text book and sample answers to guide your response. When answering the multiple choice questions:

1. Choose what you think the answer might be
2. Look it up in your text book

Core 1: Health Priorities in Australia Week 5, Term 2 2016

Area of the syllabus aimed to be covered in lessons this week:

**What role do health care facilities and services play in achieving better health for all Australians?**

**Students learn about:**

- health care in Australia
  - range and types of health facilities and services
  - responsibility for health facilities and services
  - equity of access to health facilities and services
  - health care expenditure versus expenditure on early intervention and prevention
  - impact of emerging new treatments and technologies on health care, eg cost and access, benefits of early detection
  - health insurance: Medicare and private

**Students learn to:**

- evaluate health care in Australia by investigating issues of access and adequacy in relation to social justice principles. Questions to explore include:
  - how equitable is the access and support for all sections of the community?
  - how much responsibility should the community assume for individual health problems?
- describe the advantages and disadvantages of Medicare and private health insurance, eg costs, choice, ancillary benefits

**Homework**

The following HSC questions are to be handed in on **Monday 30th May**. Use your class notes, text book and sample answers to guide your response. When answering the multiple choice questions:

1. Choose what you think the answer might be
2. Look it up in your text book
3. Change your answer if you have to
4. Check with the marking guidelines. This will help cement your learning!
